

LIVENGOOD®

INTERNATIONAL MEDICAL RELIEF MOBILE PATIENT CARE ENVIRONMENT (MPCE)

Consolidates...

- Oxygen
- Suction
- Monitor
- Defibrillator
- IV Pumps
- Ventilators
- Computer
- Supplies
- Drains
- Lights
- 8 outlets
- Battery

Standardized Recognizable Platform for Providers

- Create a mobile hospital environment for patients of all acuity-levels at any site.
- Self-supporting structure ideal for use in tents and unimproved buildings.
- Medical teams work from a consistent environment built for function and safety.

Build Sustainable Healthcare

- Free-standing MPCEs can be moved site to site as hospital locations change.
- Incorporate into sustainable local hospital designs independent of architecture.

Roll-Off-and-Go Deployment

- Deploy by truck, ship or air without packaging - includes a durable protective tarp.
- Maximized density for transport - 2'x2' with all free space packed with supplies.
- Support multiple patients from each MPCE including 2 ICU ventilated patients.

LIVENGGOOD®

INTERNATIONAL MEDICAL RELIEF

Build from a base

Add generic or equipment-specific mounts

Add Equipment & Supplies
