Chest Tubes	Ventilators
Drains & Catheters	Battery

Compatible with Mounting Systems from...

LIVENGGOOD®

AMBULATION - Empower Patient Mobility

Patient Space - No Longer Defined by the Bed

Traditional room design confines a patient to bed predisposing to Preventable Complications.

The Platform opens up the room to the patient, empowering mobility and improving outcomes.

Choose from a pre-configured Platform or build one to meet your particular needs.
Configure for Use Hospital-Wide Using the Same Modular Core
