IV Pumps	Procedure Tray	Procedure
Suction	Bins and Baskets	Equipment
Chest Tubes	Ventilators	Bedside
Drains & Catheters	Battery	

Compatible with Mounting Systems from...

LIVENGGOOD®

ROOM DESIGN - Focused on Patient Mobility

Patient Space - No Longer Defined by the Bed

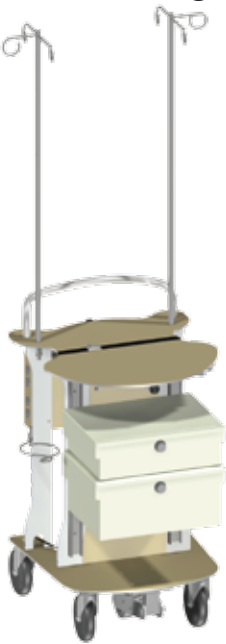

Traditional room design confines a patient to bed predisposing to Preventable Complications.

The Platform opens up the room to the patient, empowering mobility and improving outcomes.

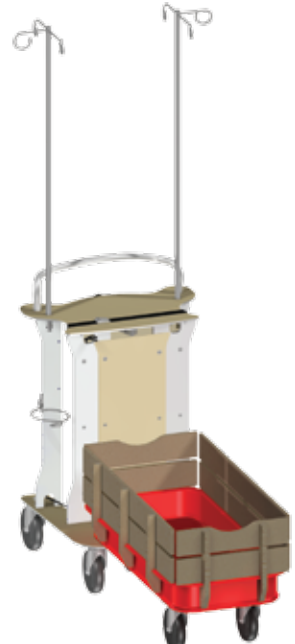

Choose from a pre-configured Platform or build one to meet your particular needs.
Configure for Use Hospital-Wide Using the Same Modular Core
